PREFACE.

We take pleasure in presenting to the public the City Directory for 1890. The latest authentic information of the commercial and residential interest of this city will be found embodied in this volume.

It has been the earnest and sustained purpose of the publishers to make this Directory as thorough and more replete than most works of its class, and in presenting this edition we take pride in assuming that it will gain a large share of approbation. The advertisers will readily appreciate the advantages of the standard character of the work as a medium for reaching the public.

The arrangement is identical with Directories of other cities.

The liberal patronage bestowed upon the present work is conclusive evidence of the high regard in which it is held by the business community; recognizing this fact the publishers will endeavor to merit still further approval of our future directories and keep pace with the rapid development of the city. This Directory will be revised often as required; ordinarily every two years.

The location of this city combined with the spirited enterprise of the citizens throughout this section are indicative of marvelous development of commercial interests.

Taking the ordinary means of computation, the population is about 4,000.

As a winter resort it is becoming widely known, being on the direct routes of both river and railroads.
