PREFACE

THE PUBLISHER of this Book of Reference has undertaken to give to the Public the best information obtainable.

A personal canvass of the County has enabled him to give the names, occupation, color and residence of its citizens over 18 years of age. Particular attention is called to the Advertisements of the various business people of the County, and your patronage is solicited, for it is through the MERCHANTS and SUBSCRIBERS that this valuable work is made possible. The expense in getting it ready for publication has been much greater than was expected at first, but no pains have been spared to make it a useful adjunct to the business people as well as the citizens of the County. Therefore, it is hoped that this book will be appreciated, and meet with a ready sale. The price to all is $4.00 per copy.

very truly,

THE PUBLISHER.

### Crescent City

The most beautiful and restful spot in the interior of the State. The Home of Health and the natural center of the Citrus industry of Florida. The population of Crescent City precinct is about 1400.

Crescent City is the second largest town in Putnam county, one of the richest in the state, about twenty miles from Palatka, the county seat. The distance from Jacksonville by rail is seventy-six miles; from Tampa on the Gulf Coast, 178 miles; from St. Augustine, fifty miles; from Daytona, seventy-two miles. As the bird flies the distance to the Atlantic Coast is twenty miles, and to the Gulf of Mexico, ninety miles.

There are three passenger trains daily from the north by the Atlantic Coast Line; the same from the south. Automobiles meet all trains. Transportation by water is also at the service of travelers. During the winter season steamers make daily trips each way between Jacksonville and Crescent City. Nothing pleasanter in Florida can be found than the water run through the broad St. Johns river; the winding deep creek; and the picturesque and beautiful Lake Crescent, giving the tourist over changing variety.

About midway from end to end of the charming lake is Crescent City, on the western side. For Florida, it is a city set on the hill. For two miles or more north and south through the city runs a ridge of pines and oaks, the crest of which is more than fifty feet above the level of Lake Crescent. Gently sloping to the west are the banks of Lake Stella, deeper than Lake Crescent, but not so large. Lake Stella's level is some forty feet higher than that of Lake Crescent.

Between these two noble lakes lies the City with its streets and avenues of oaks, its hard roads; its comfortable homes and places of business. There is no more unique location in Florida, none with better drainage; none with a more abundant supply of clear, pure water. The building of new homes goes on the year round.

There are five churches—Presbyterian, Methodist, Baptist, Episcopal and Roman Catholic—each occupying its own house of worship. There is a graded school of high order with more than 125 pupils, and a competent staff of instructors. There is a Board of Trade with sixty members; a Village Improvement Association in the hands of the progressive ladies of the place; a new and handsome playhouse.

For recreation and pleasure the visitor will find a fleet of

</table>
motor boats which can be chartered at reasonable cost. The trips to Haw Creek, St. Johns Park, and other places are of interest.

There are three hotels—Grove Hall, Sprague House, Turner House, and several first-class boarding houses.

Crescent City has the usual business facilities—a prosperous bank with deposits of over $100,000; a large new brick post office; a public library; long distance and local telephone and telegraph service; ice plant; waterworks; stores in variety; express office; livery stables, etc., etc.

As a citrus fruit growing district the country about Crescent City is unequalled. The soil is perfectly adapted to producing oranges, tangerines and grape fruit of the highest excellence and best carrying qualities. The highways in all directions are lined with vigorous and profitable groves. Crescent City fruit is a favorite in eastern and northern markets. To handle the annual crop which often reaches 250,000 boxes there are five large packing houses open to growers with many smaller ones for private use.

Corn, potatoes and other vegetables do well in the fertile surrounding country, and trucking is becoming an important industry.

The climate the year round is all that could be desired, the temperature being equable, the days not oppressive, and the nights always refreshing. The prevailing winds coming from the east, bring the ozone from the ocean through the pines, carrying healing and health in every breeze. Between Tampa on the south and Jacksonville on the north the climate here has the best features of both; the water area on all sides tempering it from extremes.

The people of Crescent City come mainly from the eastern and northern states, though some are Floridians by birth. They are law-abiding, church-going, temperate and industrious people, ready at all times to welcome others of the same class. More specific information about Crescent City may be obtained by addressing the Secretary of the Board of Trade.

The Southfield Bible Conference is a yearly event in Crescent City, calling together for consultation in matters of religious consideration an earnest body of well known ecclesiastics.

Hunting and fishing is very good the year round. Deer, Quail, Wild Turkey and Ducks are reasonably plentiful and within easy reach.

Georgetown

Georgetown was a thriving village before the war, and later it developed into one of the largest citrus growing sections of the County. The disastrous freeze of 1895 cleaned up the groves and many northern owners abandoned their homes—since that time the fish industry has been developed and large quantities of fish are shipped daily from this point. Gale & Co. have the distinction of being the leading wholesale shippers of fish in the Lake George region, they own their own ice plant and their shipments of fish go to all principal cities of the north and west.

Georgetown has a Public school, Post office, Methodist church, and the colored people have the usual allotment of churches and societies. Georgetown, is admirably situated on the St. Johns River, and has an industrious citizenship.

Fruitland

Fruitland as the name implies is located on the Fruitland peninsula, its shores are washed by the St. Johns river, and the Atlantic Coast Line railroad is about four miles distant, the farming lands around this section are exceptionally good. There are many good orange groves and the people are industrious and hospitable.

Welaka

Welaka is an ideal location on the east side of the St. Johns River nearly opposite the famous Ocklawaha river, which is the “Mecca” for the fisherman and hunter. The lands round about, are diversified so that the prospective settler can find just what he is looking for. There are many fine orange and grape-fruit groves, three churches, and a good public school. It is an ideal winter resort. Close enough to the Atlantic to get the benefit of good air, and in the pine woods which guarantees health and vigor to those in need of our genial Southern climate. This directory furnishes the address of the business men, any of whom will cheerfully give any information regarding Welaka to those desiring it.

CHURCHES.

M. E. Church.
Pomona

Nature's garden spot situated near the center of the Fruitland Peninsula 14 miles south of Palatka and 69 miles south of Jacksonville on the A. C. L Ry—is from 75 to 100 feet above tide water, and owing to the absence of swamps and stagnant water there are few mosquitoes and malarial fever cases extremely rare.

CHURCH AND SCHOOL FACILITIES.

A commodious Congregational church affords ample opportunity for divine worship. In our schools are taught the Grammar and High School grades, and in addition to these, Bookkeeping, Stenography, the classic and modern Languages.

SOIL.

The soil is a gray sandy loam, largely underlaid with a subsoil of clay, and particularly adapted to the growing of Citrus fruits, peaches, figs and various other fruits. This section also contains a large area of well drained flat woods and muck lands, especially suited for general farming and trucking. Either fruit or farming lands can be bought in tracts of 5 acres or more at reasonable prices and on easy terms. For any information regarding Pomona write to Courtland C. Middleton, dealer in improved and unimproved lands, homes or farms Pomona.

**Satsuma**

Satsuma is located on the Atlantic Coast Line railroad about 9 miles from Palatka and 64 miles from Jacksonville.

The soil is adapted in every way for general farming—the citrus fruits do well. The Satsuma Co., have an area of several hundred acres planted to camphor trees; the St. Johns river and Dunns Creek furnishes water transportation, both being in close proximity. Hard roads have been made through this section which affords a pleasant trip for the Autoist. There are daily mails—Methodist and Baptist churches, a public school—New York the Colored settlement has a school and the usual number of colored churches and societies.

I carry 40 different varieties of tobacco.—T. R. HIGGINS, Lemon Street, Palatka, Florida.

Orange Mills

Is a small village, situated in the midst of the great potato belt of Putnam County. It is on the Florida East Coast Railroad and Dixie Highway, 6 miles from Palatka and 5 miles from Hastings, the Capitol of the Potato Kings of Florida. It is in close proximity to the St. Johns River and its lands are the best quality.

There are two general stores, Kettle & Townsend and the Farmers Supply Company, the latter is under the management of R. J. Crouse who is also Postmaster. Orange Mills has a large Cooperage Plant, a good public school, a Methodist Episcopal church (South), also two colored churches and their various societies. Another important factor is the Great mill of Messrs. Stoddard and Conrad. Information regarding Orange Mills will be cheerfully furnished inquirers, by any of the people whose names are found in the succeeding pages of Orange Mills information.

Quiet, Jasper (Isabel).
Federal Point

Is situated in the North East Corner of Putnam County, on the east side of the St. Johns River, about twelve miles from Palatka, the County seat. It is an incorporated town with about three hundred inhabitants. It has one general store, a small hotel, two churches one white, and one negro. Two public schools, one for whites the other for colored. A club house and the nucleus for a Public Library.

The town was founded in 1866, and derives its name from the minutes of the first survey that was made of the state after it was ceded to the United States Government by Spain. The town owes its prosperity to its insular situation and its excellent soil that produces in abundance all varieties of field crops, garden vegetables and citrus fruits. It is really a community of small farmers and fruit growers that are eminently prosperous. Unlike nearly all the small towns in this state, there is little if any land for sale or unimproved. Situated on the East bank of the St. Johns River that is two miles wide at this point, the cold winds from the north west are tempered in crossing this expanse of water, lessening the frosty air nearly or quite five degrees.

The facilities for transportation are excellent. There is a good wharf and warehouse where river steamers make daily landings, and a station of the Fla. East Coast Railroad three miles distant at Hastings. Federal Point also has Postal and Telegraph service sufficient for its needs. The town is a clean one, with no resort of bad repute, and its inhabitants are law abiding and of good repute. With the recent hard roads, the people have quick and easy transportation by automobile to Jacksonville, Palatka and all parts of the state.

I carry 40 different varieties of tobacco.—T.R. HIGGINS, Lemon Street, Palatka, Florida.
Money for Moss

THE FLAMOSS COMPANY, of Palatka, is now ready to receive consignments of good, clean Green Moss (moss from cypress and oak trees always preferred.) All moss must be put up in bales while in a dry state and absolutely free from sticks and trash.

Moss picked from trees during dry weather is suitable and ready for baling. Do not bale moss when it is damp or wet.

Baling Machines of a knocked-down type will be furnished any person making a contract with the Company, at the small price of $5.00, and will be redeemed by the Company at the same price when contract is filled, provided it is returned to them in good condition.

We furnish baling wire at cost, $2.50 per bundle, 250 wires 9 1/2 feet long to bundle.

For Moss, in condition as specified above, the Company will pay, either through its agent, or direct to the shipper,

$10.00 per ton, or 50c per 100 lbs.

when baled and delivered f. o. b. any dock. If shipment is made by rail it is best to ship in car-load lots of 15,000 lbs., as on small lots we are obliged to deduct the difference between the car-load and less than car load rate. All consignments are paid for in cash or by check immediately on arrival at Palatka.

This is one of the best propositions ever made to anyone in Florida who wishes to make money and start for himself a profitable and lasting business.

The Flamooss Company has government contracts to fill, and moss-gathering is a legitimate and patriotic effort. You are helping your government and at the same time being well paid for services rendered.

Many of our pickers have picked from 2,000 to 3,000 pounds a day. One moss picker earned $72.00 in one week.

All shipments of moss must be made direct to

The Flamooss Co.

When the Well's Dry
We Know the Worth of Water

When the well is dry we know the worth of water and when the pocket is empty we know the value of money. The happy go lucky individual who spends as much as he makes is a Thin-Ice Skater. If sickness or loss of work should come he drops through and disappears. When old age descends upon him, it is unfortunate but true that he usually finds himself in the threadbare ranks of those who have seen better days.

Times have changed materially since Benjamin Franklin wrote these words about the well. But the lesson they impart is as unchanging as the stars. Those who practice thrift, who prepare for next year as well as this, go rapidly forward. A steadily-growing bank account gives them confidence to branch out and courage to tackle bigger things. It makes the step lighter and the heart more cheery.

The State Bank of Palatka,
Florida

Cordially Invites New Accounts
Lake Garfield Trees

The Kind You Must Eventually Buy If You Believe in Trees That are Profit-Bearing

Our trees are vigorous, caliperine from three-quarters to two inches, on a five-year-old root system. They are the result of budwood selection from parent stock that has always run true to type. There has been no guess work about it and the quality of the trees is as fine as our years of experience can make it. Reliability is our slogan when it comes to citrus stock.

We have plenty of these trees now, but if this year works out as have the preceding years they won’t last very long, so we request that you order early. We want to give you service of the kind we have always given and for this reason ask that you cooperate with us in the matter of ordering early.

TO PROSPECTIVE GROVE PLANTERS: SEND FOR OUR NEW CATALOG AND BOOK, “PRACTICAL CITRUS CULTURE—FIRST FIVE YEARS.” BOTH ARE FREE TO YOU.

Interlachen Sand and Gravel Co.

Concrete Sand and Gravel for Road Purposes

Interlachen

G. E. Gillett

Interlachen Dealer in General Merchandise

If you do not see what you want, ask for it.

Interlachen

Is 17 miles west of Palatka on the A. C. L. Railway; ideally located on high land, between two beautiful lakes. Its principal streets are paved with hard clay. Has local and long distance telephone, telegraph and express office; has three white churches — M. E., South, Episcopal and Congregational. Has public school, amusement park and tennis courts; two general stores.

The Interlachen Sand & Gravel Co., located here, furnish the greater part of the road material used throughout the county. There is a good hotel and accommodations for guests in private homes and boarding houses. Two physicians care for the physical welfare of the community. The largest poultry farm in the county is located here.

Keuka, P. O. Edgar

One of the prettiest sites for a town, is about 19 miles from Palatka on the A. C. L. Ry. (short line). It is high and dry, in the pine woods, and free from malaria. There is one General store, and an excellent hotel; Mrs. John Ervin, the proprietress, caters to the comforts of her patrons and affords them all the comforts of home life.

This little hamlet is an ideal place for people to enjoy a restful season and be braced up by the invigorating pine woods air. Ample opportunity for hunting and fishing. Any of the following residents will gladly furnish any further information.

Florahome

Homesneeders, and others, will find a pleasant place to locate about 17 miles west of Palatka on the G. S. & F. R. y. A visit to Florahome will convince the most skeptical. The Magnolia Farms at this place owned and managed by Hon. G. C. Hardy comprising 1500 acres is one of the attractive places for agriculturists to see. The bean crop from this section amounts to many thousands of dollars every year. The late Wm. R. Revels was another large farmer, and his estate still controls a Cotton Gin, Grist Mill, etc. which is of great value to the community. There are all classes of lands, High Pine, Hammock and Muck Lands, the latter are now available and are destined to be the most substantial holding that a community could wish for—Cane growing is a large and growing industry. The live stock industry (Cattle and Hogs) is receiving close attention. Fruit of all kinds do well. The water is soft. Church, School, Post-Office, and Railroad facilities, coupled with a desirable people, go to make Florahome one of the leading portions of Putnam County.

Rodman

Is on the Ocklawaha Valley R. R. and is about 12 miles from Palatka. One of the largest lumber mills in the State is located at this point—The Rodman Lumber Company, is known far and wide, it furnishes work for hundreds of men who are comfortably situated near the mills. The farming lands around Rodman are of the richest kind, and the Rodman Lumber Company farm of hundreds of acres. The stock farms of the Rodman Lumber Company, and Ray M. Coe, supply a large quantity of Beef and Pork to wholesale and retail butchers at home and abroad. The Offices of the O. V. R'y Co., are also located here. Telegraph and Telephone combined with Postal, Railroad and Express facilities, give Rodman the right to prominence on the map of Putnam County. There are two churches, Methodist and Baptist, and a good graded white school.

Further information may be had by applying to the,

RODMAN LUMBER COMPANY,
Rodman, Florida.
